The image displays three circuit diagrams for different sensors, each enclosed in a dashed blue box. The IMU diagram shows an ICM-40609-D chip connected to an IMU\_CS pin, with various signal pins (IMU\_MISO, IMU\_MOSI, IMU\_SCK, IMU\_INT) and power pins (VDD, VDDIO, GND) connected to a +3.3V supply. The MAGNOMETER diagram shows an MMC5983MA chip connected to a MAG\_CS pin, with signal pins (MAG\_MOSI, MAG\_MISO, MAG\_SCK, MAG\_INT) and power pins (VDD, VDDIO, GND) connected to a +3.3V supply. The BAROMETER diagram shows a BMP390 chip connected to BAR\_SDA and BAR\_SCL pins, with signal pins (SDO, SDI, SCK) and power pins (VDD, VDDIO, GND) connected to a +3.3V supply. The diagrams include various components like resistors (R27, R28, R29, R30, R31), capacitors (C35, C36, C37, C38, C39, C40, C41), and voltage sources (+3.3V, +3.3VA).
